Tulux – a company
that inspires.

SWISS LIGHT CREATIONS

“Reliability and quality. This is what SWISS LIGHT CREATIONS stands for – and has done since 1948. We invest a great deal in these values – right here in Switzerland, at our production site in Tuggen in the canton of Schwyz. 200 members of staff ensure that genuine Swiss quality is reflected in every stage of the production process. From the idea through to the development, planning and successful implementation, we create lighting solutions that trigger emotions, because they are high quality and because they are truly SWISS LIGHT CREATIONS.

Decades of company tradition commit us to constant innovation. This requires courage, clarity and responsibility: the courage to create new solutions, clarity in implementation, and a responsibility to our staff and to society. That's why we live up to our responsibilities as a manufacturer and play an active role in recycling; after all, lights and lighting should not only be produced in high quality, they should also be able to be returned and recycled properly throughout Switzerland. As an SME, we are a significant player in the market. This is a position that comes with obligations. We take responsibility for our entire industry and bring new meaning to the word quality.

We design light, giving it form and an individual radiance. Rather than an arbitrary set of products, SWISS LIGHT CREATIONS stands for precise, convincing solutions. Our developers create not only high-quality standard luminaires but also special luminaires according to customer requests. Our development focuses on lights and lighting systems for the Swiss market. And, judging from the market's appreciation for what we do, we feel that our claims are justified and that we deliver precisely what we represent: SWISS LIGHT CREATIONS.”

ZEN4 INDIRECT – five convincing reasons.

1. Known design
2. Comfortable, indirect light
3. Homogeneous ceiling illumination
4. Optimal light on the working plane
5. Direct and indirect autonomously adjustable

ZEN 4 INDIRECT – an idea
that became reality.

PHILOSOPHY

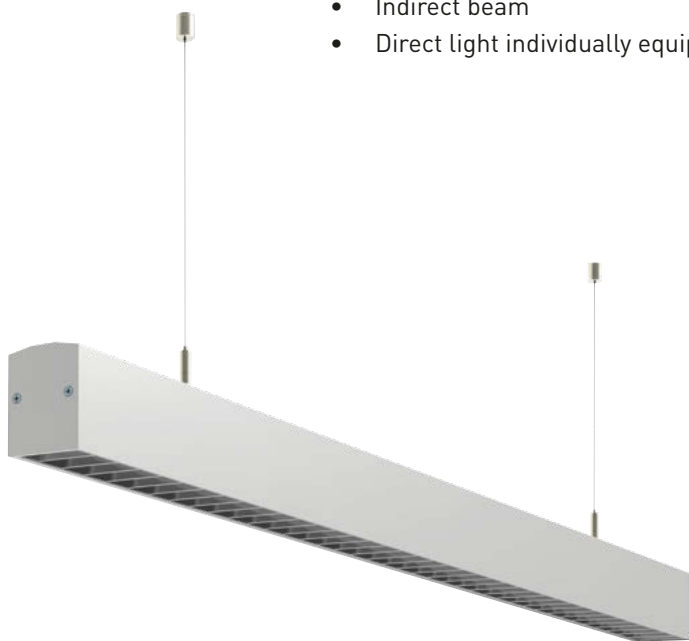

ZEN 4 INDIRECT exists simply and honestly. With a timeless design, it doesn't seek out attention but is created for the spaces and people in them. ZEN 4 INDIRECT creates a homogeneous ceiling illumination and ensures ideal visual conditions on the working plane at the same. ZEN 4 INDIRECT is not simply a product but the embodiment of a philosophy. The simplicity of ZEN 4 INDIRECT is designed for the diversity and versatility of life. ZEN 4 INDIRECT is easy to install and multifaceted. ZEN 4 INDIRECT can, in theory, be endlessly strung together or go around corners. ZEN 4 INDIRECT can be individually equipped. Form and function always remain simple. Simply honest, simply timeless, simply good.

ZEN 4 INDIRECT – a product
that wins people over.

OVERVIEW

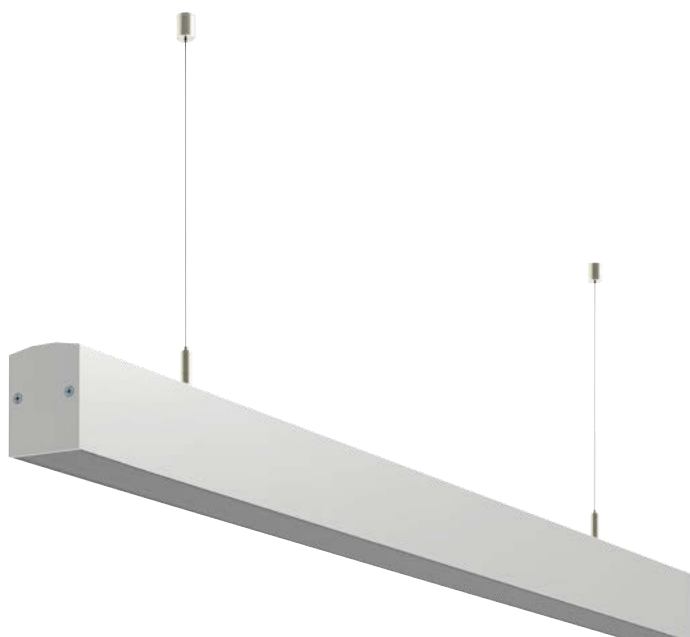

- Anodised aluminium profile
- Plastic cover
- IP50 lamp housing
- Broad light distribution
- CRI > 80
- Indirect beam
- Direct light individually equipped

Specular louvre low gloss

Prismatic acrylic glass

Satinated acrylic glass

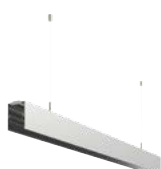

9-cellular reflector luminaire

6-cellular reflector luminaire

12-cellular reflector luminaire

Light colour

3000 K / CRI > 80	•
4000 K / CRI > 80	•

Profile length

1170 mm to 4980 mm	•
--------------------	---

"ZEN 4" LED direct light elements

Satinated acrylic glass (XR 46)	•
Prismatic acrylic glass (XR 44)	•
Specular louvre low gloss (XR 48 M)	•
6-cellular reflector luminaire (236901 / 02)	•
9-cellular reflector luminaire (236901 / 02)	•
12-cellular reflector luminaire (236901 / 02)	•

ZEN 4 INDIRECT – a product
that wins people over.

DESIGN

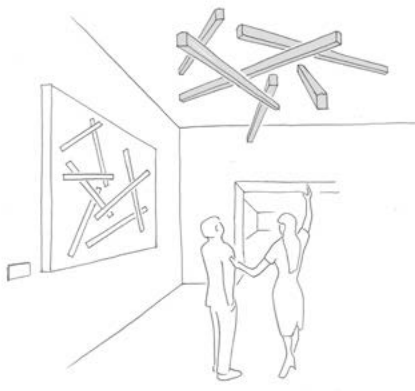

- Linear
- Simple
- Timeless
- Known / familiar design
- Discreet
- Anodised finish throughout

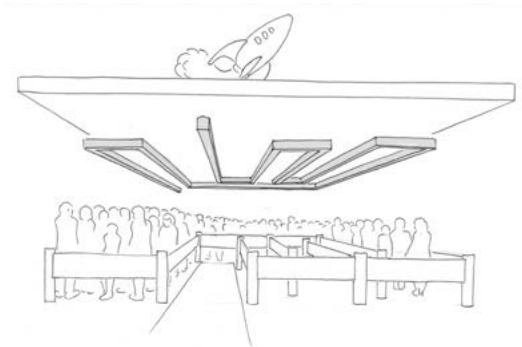

ZEN 4 INDIRECT – a product
that wins people over.

CUSTOMISATION

- Can be equipped with any insert from the entire “ZEN 4” product line
- Available in many combinable standard lengths
- Combinable with “ZEN 4” profiles
- Special lengths upon request
- Switchable and dimmable per DALI control via sensors and building bus

Acc-ZEN-ted lighting

Flexible linear design

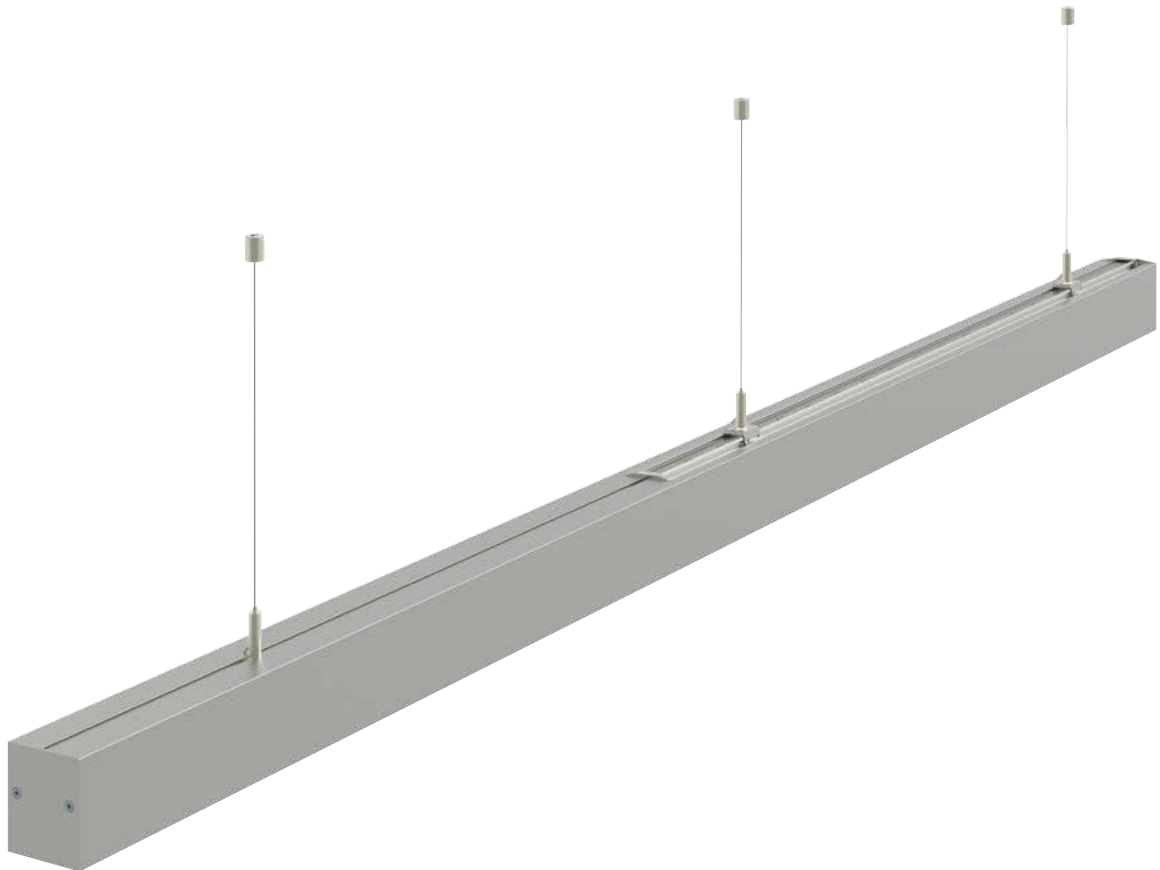

Light without end

ZEN 4 INDIRECT – a product
that wins people over.

PROFILE CONST- RUCTION/DESIGN

- Stamped aluminium profile combines indirect light unit and direct light unit
- Suspension mounting points integrated directly into the profile

ZEN 4 INDIRECT – a product
that wins people over.

LIGHT QUALITY

- 3000 K/4000 K colour rendering, CRI > 80
- Ceiling ideally illuminated thanks to extremely broad light distribution

Even light distribution

Harmonious lighting

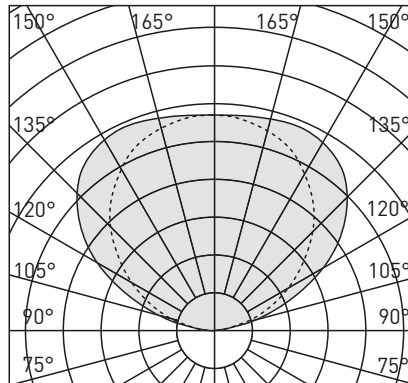

Homogeneous illumination

ZEN 4 INDIRECT – a product
that wins people over.

LIGHT DISTRIBUTION

- Plastic cover
- A specially developed lens cover achieves a broad and homogeneous light distribution
- Ideal visual conditions even without direct light

ZEN 4 INDIRECT – a product
that wins people over.

INSTALLATION

- Suspension mounting easy to adjust
- Suspension mounting screwed directly into the ceiling
- Suspension mounting can be moved on the profile after installation
- Clip-in suspension rails
- Adjustable converter

ZEN 4 INDIRECT – a product
that wins people over.

APPLICATIONS

- Office environments
- Corridors
- Banks
- Bars
- Lounges
- Restaurants
- Entrances
- Reception areas
- Conference rooms
- Sales floors
- Residential
- Production facilities
- Healthcare sector
- Classrooms
- Industry
- Warehouses
